For Immediate Release

September 17, 2021

Sydenham Road Micro-Surfacing Starting September 20

During the week of September 20th, 2021, the Township will be moving forward with **pavement rehabilitation activities on sections of Sydenham Road between Horning Road and Rutledge Road**. Motorists travelling through this area should anticipate traffic delays along with rotating lane closures.

The micro-surface treatments scheduled for Sydenham Road (County Rd 9) will extend the life of the pavement by an additional 6 to 8 years. Ensuring highly travelled road ways are regularly maintained helps lengthen the lifespan of these major arteries and is part of the Township's asset management plan.

The Township is asking that drivers proceed slowly through the construction and obey all signs and traffic control personnel throughout the work zone in order to ensure the safety of local workers and other travellers. Electronic mobile signage will be posted on Sydenham Road facing North bound to alert residents of the construction starting next week.

Residents with additional questions about the closure can contact Troy Dunlop, Manager of Technical Services and Infrastructure at 613-376-3027 ext. 3333 or via email to pwsupport@southfrontenac.net.

Your patience and cooperation during this project is greatly appreciated by Council and staff.
